

**Compensatory Education
(Title I)**

Title I funds shall be used to provide educational services that are in addition to the regular services provided for district students. By adoption of this policy, the Board ensures equivalence among schools in teachers, administrators and auxiliary personnel and in the provision of curriculum materials and instructional supplies.

Title I services in project areas, taken as a whole, shall be at least comparable to services being provided in school attendance areas that are not receiving such funds.

District personnel shall establish written procedures which include a process to demonstrate that Title I funds are used to provide services in project areas that are at least comparable to the services provided through state and local funds in attendance areas not receiving Title I funds and to maintain appropriate records documenting compliance with this policy.
