

Relations With State Agencies

The district recognizes that problems of delinquency, drug abuse, gang involvement and other youth related problems which negatively affect the community can best be addressed in a proactive and preventative manner. It further recognizes that the district and the local community are significantly impacted by the demands placed upon them to address incidents and situations directly or indirectly related to juveniles and the schools.

The district shall cooperate and to the extent possible develop written agreements with law enforcement officials, the juvenile justice system and social services, as allowed under state and federal law, to keep each school environment safe.

This cooperative and proactive effort shall pursue the following primary objectives:

1. Development and periodic review of crisis prevention and management plans and safe school plans.
2. Assessment of district and building security, safety, and violence prevention policies and procedures.
3. Development of guidelines for how and when to contact state agencies and what support the district shall provide to aid in the effectiveness of the state agency.
4. Protection of the civil rights of all individuals.
