Student Support Services

### Supplemental Education Services for Enrichment Academy Students

The federal education law, No Child Left Behind, requires schools in their second year of school program improvement to offer after school tutoring to students attending that school. Enrichment Academy is in its second year of program improvement. Students in grades 1-6 who attend Enrichment Academy are entitled to free tutoring services in reading and math. All providers are able to serve students with second language or special education needs. Listed below are providers who have indicated a specific interest in serving Enrichment Academy students.
