

March 20, 2020

Dear Mapleton families,

We believe that learning knows no boundaries. Although we miss having your child(ren) in our classrooms, we are ready and excited to explore new remote learning opportunities. We are hopeful our remote learning plan will continue to support the academic journey of your child(ren) with inspiring and engaging programs and platforms. Please remember this is a new experience for all of us, and we are in this together. Below please find important information as we introduce remote learning in Mapleton:

- Effective Thursday, April 2, your child's teacher/s will be helping them to access new learning from home. Please watch your email/text/voicemail for more information from your child's teacher about what platform they will be using and how to access material.
- A device will be provided to your child to ensure they have access to learning resources. We will be in touch the week of March 23 regarding how these resources will be provided to you.

We understand you probably have a lot of questions. Please work closely with your teacher and school director to get the support and answers you need to ensure a successful remote learning experience for your family. Please find more information here: <https://www.mapleton.us/Page/5311>

Warm Regards,

Mapleton Public Schools
