

Privacy and Protection of Confidential Student Information

Mapleton Public Schools (the “District”) is committed to protecting the confidentiality of student information obtained, created, and/or maintained by the District. Student privacy and the District’s use of confidential student information are protected by Federal and State law, including the Family Educational Rights and Privacy Act (“FERPA”) and the Student Data Transparency and Security Act (“the Act”). District staff is directed to manage its student data privacy, protection, and security obligations in accordance with this policy and applicable law.

For purposes of this policy, the following definitions apply:

1. “Student education records” are those records that relate directly to a student. Student education records may contain, but not necessarily be limited to, the following information: identifying data; academic work completed; level of achievement (grades, standardized achievement test scores); attendance data; scores on standardized intelligence, aptitude and psychological tests; interest inventory results; health and medical information; family background information; teacher or counselor ratings and observations; reports of serious or recurrent behavior patterns and any Individualized Education Program (IEP).
2. “Student personally identifiable information” (“student PII”) means information that, alone or in combination, personally identifies an individual student or the student’s parent or family, and that is collected, maintained, generated, or inferred by the district, either directly or through a school service, or by a school service contract provider or school service on-demand provider.
3. “Security breach” means the unauthorized disclosure of student education records or student PII by a third party.
4. The following terms shall be as defined by the Act: “school service,” “school service contract provider,” and “school service on-demand provider.”

Access, Collection, and Sharing Within the District

The District shall follow applicable law and District policies with regard to access, collection, and sharing of student education records.

District employees shall ensure that confidential information in student education records is disclosed within the District only to officials who have a legitimate educational interest, in accordance with applicable law and District policies.

Outsourcing and Disclosure to Third Parties

District employees shall ensure that student education records are disclosed to persons and

organizations outside the District only as authorized by applicable law and District policies.

The term “organizations outside the District” includes school service on-demand providers and school service contract providers.

Any contract between the District and a school service contract provider shall include the provisions required by the Act, including provisions that require the school service contract provider to safeguard the privacy and security of student PII and impose penalties on the school service contract provider for noncompliance with the contract.

In accordance with the Act, the District shall post the following on its website:

1. A list of the school service contract providers that it contracts with and a copy of each contract; and
2. To the extent practicable, a list of the school service on-demand providers that the District uses.

Privacy and Security Standards

The security of student education records maintained by the District is a high priority. The District shall maintain an authentication and authorization process to track and periodically audit the security and safeguarding of student education records.

Security Breach or Other Unauthorized Disclosure

Employees who disclose student education records in a manner inconsistent with applicable law and District policies may be subject to disciplinary action, up to and including termination from employment. Any discipline imposed shall be in accordance with applicable law and District policies.

Employee concerns about a possible security breach shall be reported immediately to the Chief Technology Officer (CTO). If the CTO is the person alleged to be responsible for the security breach, the staff member shall report the concern to the Superintendent of Schools.

When the District determines that a school service contract provider has committed a material breach of its contract with the District, and that such material breach involves the misuse or unauthorized release of student PII, the District shall follow this policy’s accompanying regulation (JRCB-R) in addressing the material breach.

Nothing in this policy or its accompanying regulation (JRCB-R) shall prohibit or restrict the District from terminating its contract with the school service contract provider, as deemed appropriate by the District and in accordance with the contract and the Act.

Data Retention and Destruction

The District shall retain and destroy student education records in accordance with applicable law and District policies.

Staff Training

The District shall provide periodic in-service trainings to appropriate District employees to inform them of their obligations under applicable law and District policies concerning the confidentiality of student education records.

Complaints

In accordance with this policy's accompanying regulation (JRCB-R), a parent/guardian of a District student may file a written complaint with the District if the parent/guardian believes the District has failed to comply with the Act.

Requests to Amend Student Education Records

Requests by parent(s)/guardian(s) to amend his or her child's education records shall be in accordance with the District's procedures governing access to and amendment of student education records under FERPA, applicable State law, and District policies and regulations.

Oversight, Audits, and Review

The Superintendent (or designee) shall be responsible for ensuring compliance with this policy and its required privacy and security standards.

The District's practices with respect to student data privacy and the implementation of this policy shall be periodically audited by the Superintendent (or designee).

A privacy and security audit shall be performed by the District on an annual basis. Such audit shall include a review of existing user access to and the security of student education records and student PII.

The Superintendent (or designee) shall annually review this policy and accompanying regulation (JRCB-R) to ensure it remains current and adequate to protect the confidentiality of student education records in light of advances in data technology and dissemination.

Compliance with Governing Law and Board Policy

The District shall comply with FERPA and its regulations, the Act, and other State and Federal laws governing the confidentiality of student education records. The District shall be entitled to take all actions and exercise all options authorized under the law.

In the event this policy or accompanying regulation does not address a provision in applicable State or Federal law, or is inconsistent with or in conflict with applicable State or Federal law, the provisions of applicable State or Federal law shall control.

Adopted August 27, 2019, by the Board of Education for Mapleton Public Schools.
